ADDITIONAL COMMENTS

Nexus Triage telemedicine assessment includes the following procedures:

- ✓ Neurobehavioral Status Exam and Clinical Interview with Expert Neuropsychologist or Neurologist
- ✓ Neurobehavioral Assessment with Testing
- ✓ Summary of Consultation Report (incl. diagnosis, recommendations, impairment rating)

Nexus Triage is designed to quickly evaluate the neurobehavioral functioning of injured patients, and inform referring party on diagnostic impression, probable level of impairment, and recommendations for subsequent evaluations and treatment.

To maximize efficiency of our communication with the claimant, please inform your claimant this is a formal telemedicine medical appointment and the reason for this referral.

Note: A late cancellation and/or no-show fee will apply.

Please download the completed referral form and send it via email to orozco@apexneurohealth.com
